

GoPass[®]

FOR TCC STUDENTS

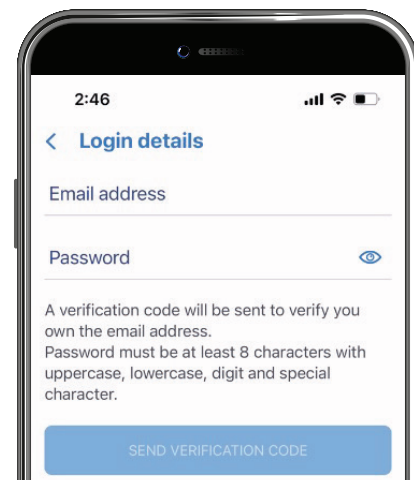

Trinity Metro is implementing transit passes through the GoPass mobile app for TCC students. TCC student passes allow each student to ride Trinity Metro bus, rail and On-Demand microtransit services for free.

To receive your student pass automatically, please set up the GoPass mobile app on your phone and register with your TCC student email address.

1. Download GoPass from either the Google Play store or the Apple App store:

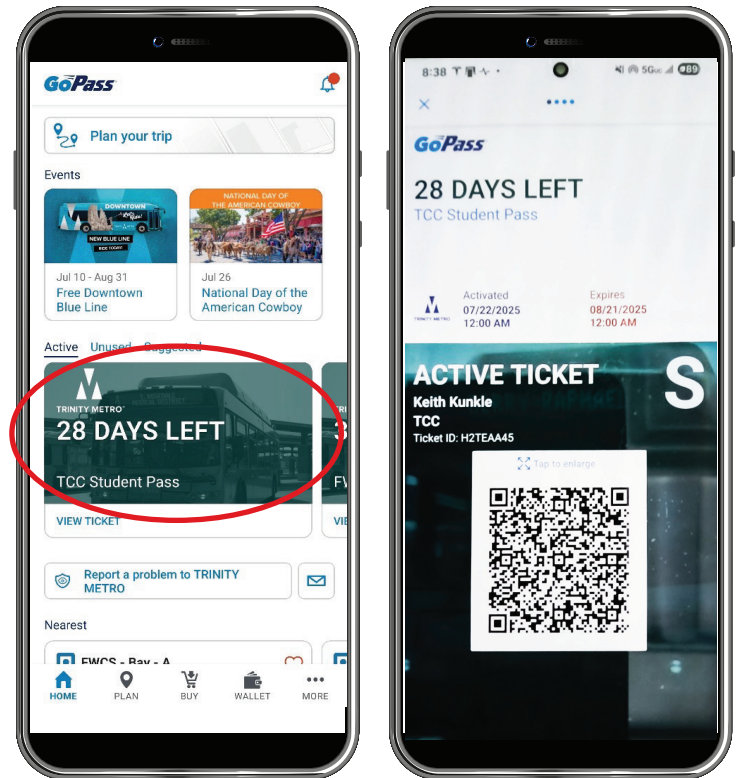

2. Make sure you have access to your student email because you will be getting a verification email while setting up your **GoPass** account.
3. Once downloaded, open the **GoPass** application on your phone and follow the instructions to register.
 - a. If you already have **GoPass** set up with a personal email address, please log out. Click **More** at the bottom right of the main screen, choose Your Profile and then **Log out**.
 - b. Create a password using the requirements shown on the screen.
 - c. Make sure you use your student email address: i.e., Joe.Student@my.tccd.edu
 - d. Press the **Send Verification Code** button and follow the remaining instructions.

GoPass®

FOR TCC STUDENTS

4. You may click on your TCC student pass to open it and show the barcode. It will show how many days left in the current month and indicate **TCC Student Pass**.
5. Security features prevent screenshots of the pass. It will show a moving bus in the background and will change the color of the background to a brighter green when a finger is touching it.
6. The barcode may be scanned by the farebox on the bus or shown to a train conductor or On-Demand microtransit operator.
7. As long as you have an active student pass, you may also schedule and use On-Demand microtransit without cost to you.
8. Each pass is good for one month. New passes will automatically be sent each month as long as you are enrolled at TCC.

IMPORTANT

To receive a free student transit pass, the student must log in using his/her official TCC student email address and password. Using Google, Apple authentication, or any personal email will create a separate account that is **NOT** linked to your free pass.

If you change or upgrade your smartphone:

- Reinstall the GoPass app
- Log in again using your TCC student email address

This ensures your free monthly pass loads correctly.
